

ONE WEEK TO CLARITY. A PRACTICAL ROADMAP. LOWER-RISK DECISIONS. FASTER MOMENTUM.

KTXignite™ is KINTELIX's rapid technology and AI maturity assessment, use-case discovery, and modernization roadmap framework. In one focused week, KINTELIX evaluates the current landscape, identifies high-value opportunities and constraints, and delivers an executive-level strategy and action plan. The initial engagement is complimentary, non-billable, and non-binding.

ASSESS WHAT MATTERS

Rapid, Evidence-Based Assessment. KTXignite™ evaluates business priorities, architecture, data, applications, AI readiness, security, delivery practices, operating model, talent, and adoption barriers.

PRIORITIZE THE OPPORTUNITY

Value-Led Roadmap. Opportunities are prioritized by business impact, feasibility, risk, dependency, investment, and time to value—producing a realistic sequence rather than an aspirational wish list.

IGNITE EXECUTION

A Clear Path Forward. Clients receive target-state direction, recommended pilots, operating-model implications, investment ranges, success measures, and immediate next actions with no obligation to proceed.

KTXIGNITE™ DELIVERABLES

Maturity & Readiness Assessment	Current-state findings across strategy, process, data, architecture, applications, cloud, AI, governance, security, delivery, talent, and organizational readiness.
Use-Case Discovery	Structured identification and qualification of AI, automation, analytics, modernization, customer-experience, and operational-improvement opportunities.
Target-State Direction	High-level target architecture, capability model, operating-model recommendations, governance needs, and foundational technology decisions.
Prioritized Roadmap	Sequenced quick wins, pilots, foundational initiatives, dependencies, decision points, indicative investment, risk considerations, and implementation phases.
Value & Adoption Measures	Business outcomes, success metrics, adoption approach, ownership, benefits tracking, and governance needed to sustain momentum and demonstrate value.

INDUSTRY APPLICATIONS

Aviation • Telecommunications • Insurance • Financial Services • Healthcare • Manufacturing • Retail • Fortune 50 and Mid-Market Enterprises

CLIENT BENEFITS

- **Clarity Before Commitment.** Understand the current landscape, constraints, and best opportunities before making major technology investments.
- **Faster Executive Alignment.** Give business and technology leaders a shared fact base, prioritized decisions, and a practical path forward.
- **Reduced Transformation Risk.** Surface dependencies, readiness gaps, governance requirements, and implementation risks early—when they are easier to address.
- **Immediate Value at No Cost.** Receive a complimentary one-week assessment and high-level modernization strategy with no billing and no obligation.
